- **Introduction to Backend Development**
- **Introduction to Node.js**
- **Create Server**
- **Static api**
- **Working with JSON**
- **Response and Request**
- **Status 404 and 200**
- **Ejs and view engine**
- **Api with html**
- **Body parser**
- **Cors**
- **Express js**
- **Connect with mongoose and mongodb**
- **Schema**
- **CRUD operation**
- **Post get delete patch api**
- **Static image upload and with local images**
- **Project with crud operations**

Web Development:

Introduction of React.js and Backend Development

- **Intro**
- **Jsx**
- **Components**
- **Props**
- **Import export**
- **File handling and structure**
- **Routing**
- **Function components**
- **State**
- **Hooks**
- **Usestate**
- **Useref**
- **Usecontext**
- **Usememo**
- **Usecart**
- **Usecallback**
- **Callback functions**
- **List and keys**
- **Api fetching with promises and with axios**
- **Pincode validation**
- **Products management search products find details of products**
- **Context api**
- **Class components**

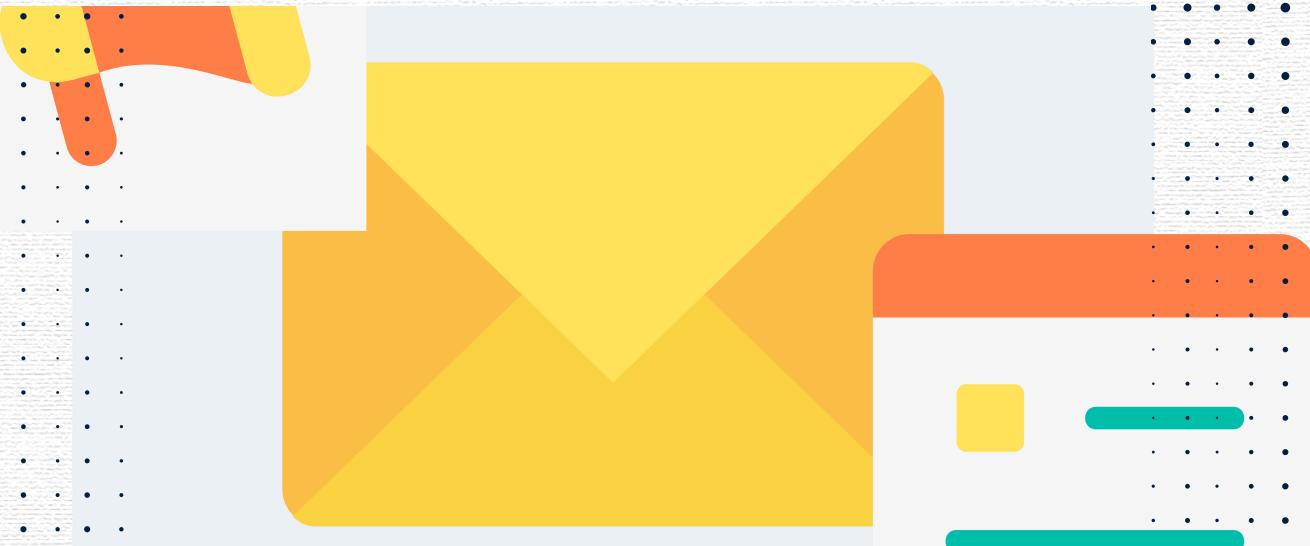

Web Development:

Advanced React and MongoDB

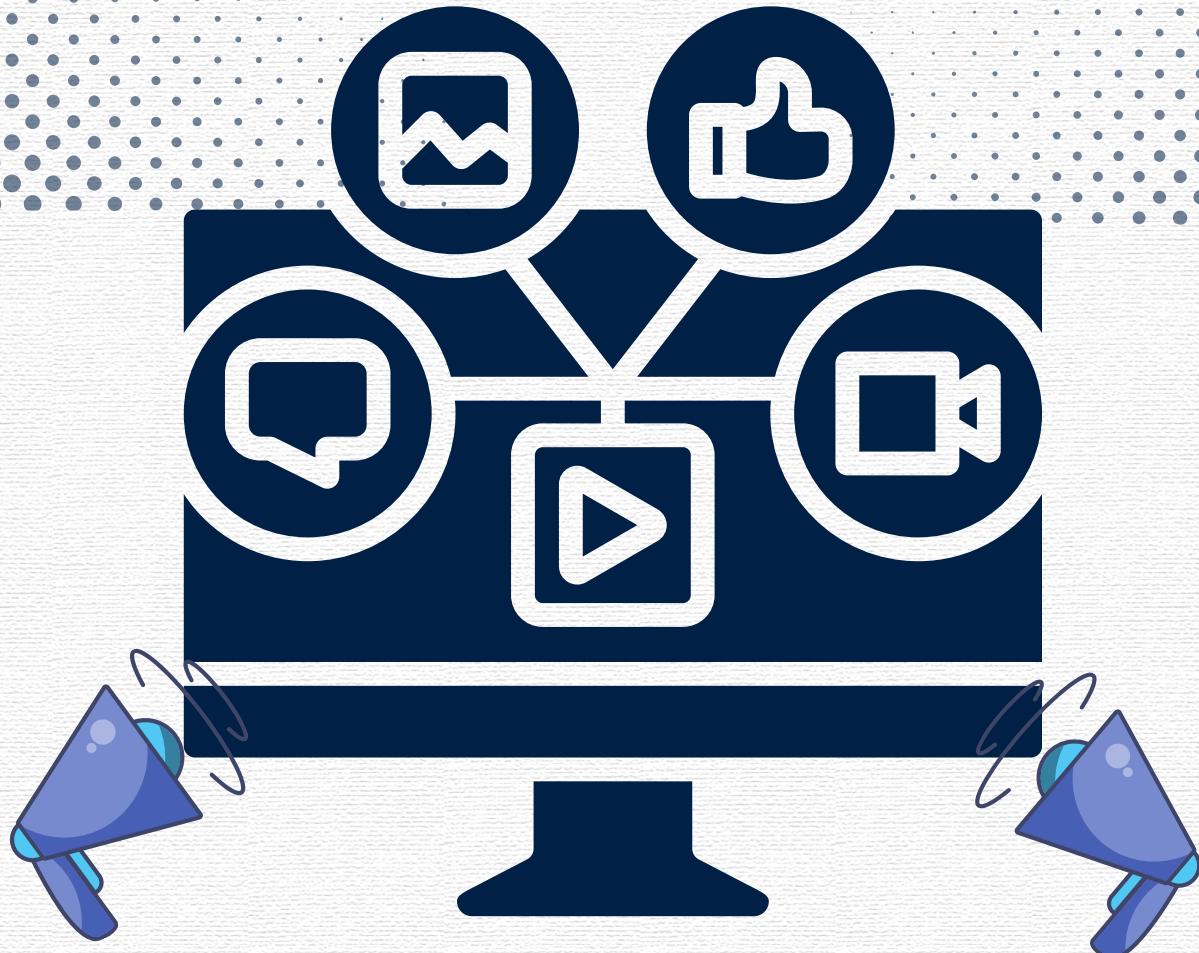

Database Introduction

- **Introduction to MongoDB**
- **Installation & Setup**
- **CRUD Operations**
- **Querying Documents**
- **Aggregation Framework**
- **Indexing**
- **Data Modeling**
- **Transactions**
- **Replication (Replica Sets)**
- **Sharding**
- **Security & Authentication**
- **MongoDB Atlas (Cloud)**
- **Mongo Shell & Compass**
- **Mongoose (ODM for Node.js)**
- **Backup & Restore**
- **Change Streams**
- **Performance Tuning**
- **MongoDB Drivers (Node.js, Python, etc.)**
- ● **strategies AOV, LTV and Store analytics**
